

Do You Hear What I Hear

Doktor Azathoth

Said the night wind to the little snake
Do you see what i see
Hanging from the tree little snake
Do you see what I see
A fruit, a fruit, a knowledge-giving fruit
It will make ideas take root
It will make ideas take root

Said the little snake to the maiden fair
Do you hear what i hear
Whisp'ring in your head, maiden fair
Do you hear what i hear
A voice, a voice, that's giving you the choice
To engage your freedom of will
To engage your freedom of will

Said the maiden fair to the only man
Do you know what i know
Take and eat this fruit, only man
Now you know what I know
Discern, discern, the evil from the good
As a sentient animal should
As a sentient animal should

Said the only man to Jehovah God
Listen to my grievance
Tyrannical despot, Jehovah God
Listen to my grievance
You lied, you lied
You said that we would die
But we live and are now just like you
But we live and are now just like you!
